

NGENDA
CONSTRUCTION

Company Profile

BUILDING TOMORROW

NGENDA CONSTRUCTION

**IS ONE OF THE LARGEST LOCAL CONTRACTOR
IN TANZANIA TO DATE.**

We have the financial, organisational and operational capacity to manage hundreds of projects at any one time across Tanzania.

Our expertise has been proven across multiple disciplines in some of the most challenging environments and our safety record is second to none. We operate in a high risk stage of the development or asset management lifecycle and we take great pride in our people and their ability to deliver projects without incident while exceeding our client's expectations time and time again.

We are respected for a bold, innovative approach that is built on trust, integrity and teamwork. We are a genuine partner to our clients and enjoy delivering value to each project. Our ability to overcome what most see as insurmountable challenges is what sets us apart. No matter what the project demands we have the in-house resources, technical expertise and specialist trade networks to get the job done right, first time. It's why we have such an enviable track record of success and how we continue to shape the urban and industrial landscapes of tomorrow

FINANCIAL CAPACITY

A strong balance sheet strengthens our capacity to deploy capital in new or highly specialised plant and equipment to meet any client or project requirement.

ORGANISATIONAL CAPACITY

We offer single source project solutions involving civil and building works, recycling and hazardous waste removal, environmental management services, specialist design and construction, and heavy plant or equipment rental.

OPERATIONAL CAPACITY

We have the scale and systems to synchronise our services, personnel and plant to meet the demands of any project in any location - City, regional, remote or Zanzibar.

KEY MILESTONES

We have delivered projects for over years, delivery
to client expectations and requirements

SERVICE PERFORMANCE

Our reputation for providing integrated single source project management solutions is second to none. We will continue to expand and diversify our services to meet our client needs, especially in the rapidly evolving environmental management sector that requires the development of highly specialist capabilities and capitalintensive plant and equipment

SECTORS PERFORMANCE

Tanzania's transport and shipping infrastructure is critical to our continued economic growth, particularly as our resources sector shifts into another production phase and tourism-related services set record highs. Like- wise, 21st Century urban landscapes demand innovative, functional and sustainable solutions – qualities and attributes that are synonymous with Ngenda Construction.

SAFETY

NOTHING MATTERS MORE THAN SAFETY

TO NGENDA CONSTRUCTION

It is our most important business practice and we demand visible leadership at every stage of a project and from everyone involved.

Our custom built Right 1st Time behavioural safety program is dedicated to empowering our people to stop and think about what they are doing, even if they have performed or completed a task hundreds of times before. Simply put, we speak up and learn from each other - constantly.

Right 1st Time is supported by an experienced and qualified team of Health & Safety professionals. It means:

- Our people go home safe. Every day.
- Each of us takes responsibility for our own safety as well as the people we work around.
- We speak up when we see anything that appears to be unsafe

Our triple certified integrated management system has been proven over thousands of projects in high risk environments, allowing us to continuously improve our practices and to build upon our reputation as best-in-class:

SAFETY

NOTHING MATTERS MORE THAN SAFETY
TO NGENDA CONSTRUCTION

QUALITY

It is our customers who define what quality looks like and the standards we need to achieve.

SAFETY

No task is so important that risk of injury to people is justified.

ENVIRONMENT

We strive to use energy efficiently, reduce waste and recycle everything we can.

VISION, MISSION & CORE VALUES

Vision

To deliver excellence in executing projects across the full project lifecycle in line with international standards and codes including but not limited to HSE, Quality, Cost and Schedule.

Mission

To offer professional engineering solutions and participate actively in the development of engineering in the region aimed at quality and functionality.

Core Values

Quality

To plan, execute and deliver quality on every project we involve ourselves in. quality is the cornerstone of Ngenda Constructions

Partners

At Ngenda we work with anybody involved with our business as partners, be it clients, Suppliers, Sub contractors and regulatory authorities.

People Centred

Ngenda hires people of the highest discipline and best behavior with keen attention to rejection of bribes, Forgery and Insincerity of any kind.

Environment

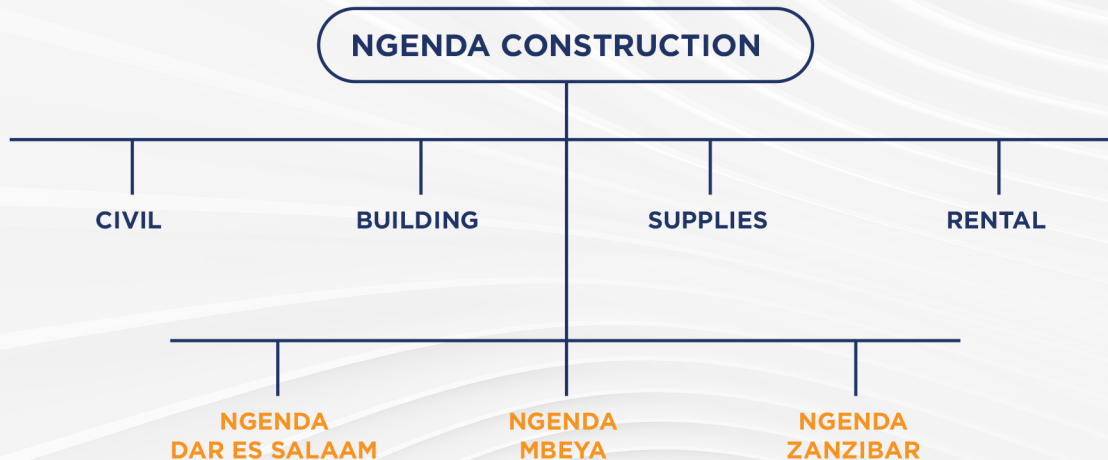

At Ngenda, we understand the environment as one of the principle places of our business. We treat the environment in a very friendly waste free manner.

Profit

Ngenda invests part of its profit in the surrounding community as part of our community social responsibility projects

OUR STRUCTURE

Our structure delivers the scale and systems to synchronise our services, personnel and plant to meet the demands of any project in any location – city, regional, remote or Zanzibar.

Our commitment to a practical management strategy led to Ngenda being awarded a lot of government and parastatal body projects. Ngenda Construction has been focused on developing the skills of Tanzanian youth through the provision of turnkey solutions to clients across the civil and building sector. In turn, Ngenda Construction has been able to earn valuable governmental recognition for offering local talent to develop their individual career pathways.

SERVICES

For decades now we've forged a reputation as a pioneer government required solutions. A trusted standard bearer of unparalleled safety, integrity, teamwork and excellence. We have the proven capability to design and deliver turnkey solutions in high risk environments and at critical 'early works' stages of urban and industrial construction projects.

Civil

We have the capacity to deliver end-to-end civil contracting services to support building and infrastructure works across urban and industrial landscapes anywhere in Tanzania.

Building

We have the capacity to deliver end-to-end civil contracting services to support building and infrastructure works across urban and industrial landscapes anywhere in Tanzania.

Heavy Equipment Rental

We are a trusted partner for the rental of late model plant and equipment as well as for 24/7 qualified support and the personnel to help get the job done right, first time.

Specialist

From feasibility and closing studies to engineering and design; approvals and programming to costing and execution – we have the means and method to offer 360° specialist design and construction expertise.

Environmental

We are at the forefront of 21st Century environmental management practices for remediating and rehabilitating commercial and industrial landscapes.

Material Supply

With a large fleet of heavy duty supply vehicles, we can deliver all types of building materials to construction sites with quality and time as our yard stick.

Retrofitting & Demolition

From heavy plant and process lines to dense and congested urban environments, our retrofitting and demolition teams call upon unrivalled expertise in all facets of commercial and industrial demolition and retrofitting.
